

## **Redistricting/Restructuring Committee Report**

Our last mtg was 06/03/2025. We are still researching the history of our areas, and will be branching out to individual counties soon. The Poll I reported on last time has been created and is now in the editing phase. We are on track for an August rollout.

Another item brought to the committee was a Sharing Session. We are planning this event for the late fall/winter some time. Most of you are familiar with workshops being put on, but this is not that type of event. The committee members will be there to hear what you have to say about our current structure. Both at SENY & County level. We want to hear from you.
